CompanyName
CompanyLocation

Dear Recruiter,

I am writing to you to express my interest in the position of CompanyPositionat CompanyName. I am a Cpumputer Engineer graduate from the most prestigious university in Iran, which gave me proficiency in Artificial Intelligence and Software Engineering. My education and experience are an excellent fit for what you need from a CompanyPosition.

My professional experience includes designing and crafting code for various mobile, web, and desktop applications and then testing the resulting code to meet client needs. In my first job, we decided to migrate our android application to Flutter for its native cross-platform feature and end-user high-performance experience, and as an outcome of this migration, our application reached more than 200k active users on google play store, and it won best mobile application in Iran web and mobile festival.

Your listed requirements closely match my background and skills. A few I would like to highlight that would enable me to contribute to your bottom line are:
- Implementing global-scale architecture and adaptive cross-platform applications
- Making Flutter web application that supports new Flutter navigation system
- Constructing a Flutter plugin for handling media notifications
- Implementing WebRTC video chat application
- Working with Firebase services
- Writing tests and automatic integration with CI/CD

I firmly believe that contributing to the open-source community is one of the best ways to develop my skills. I have contributed to Flutter repositories and filed some critical issues. Most of my academic and professional repositories are available on github. In my spare time, I write technical articles for the Flutter community that can be found on medium.

My passion for designing a beneficial program with high-quality performances for global end-users motivates me to pursue a career at your company. My enthusiasm for developing the best design structures makes me an ideal candidate for CompanyName. I've attached a copy of my resume that details my academic and professional experience in software development.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely

MAA
